

NWAI Investment Intelligence — Platform

Overview

Shared platform rails. Group-specific playbooks. One consistent deal process.

v0.16.0 · April 2026 · TechGroup Co-Chair

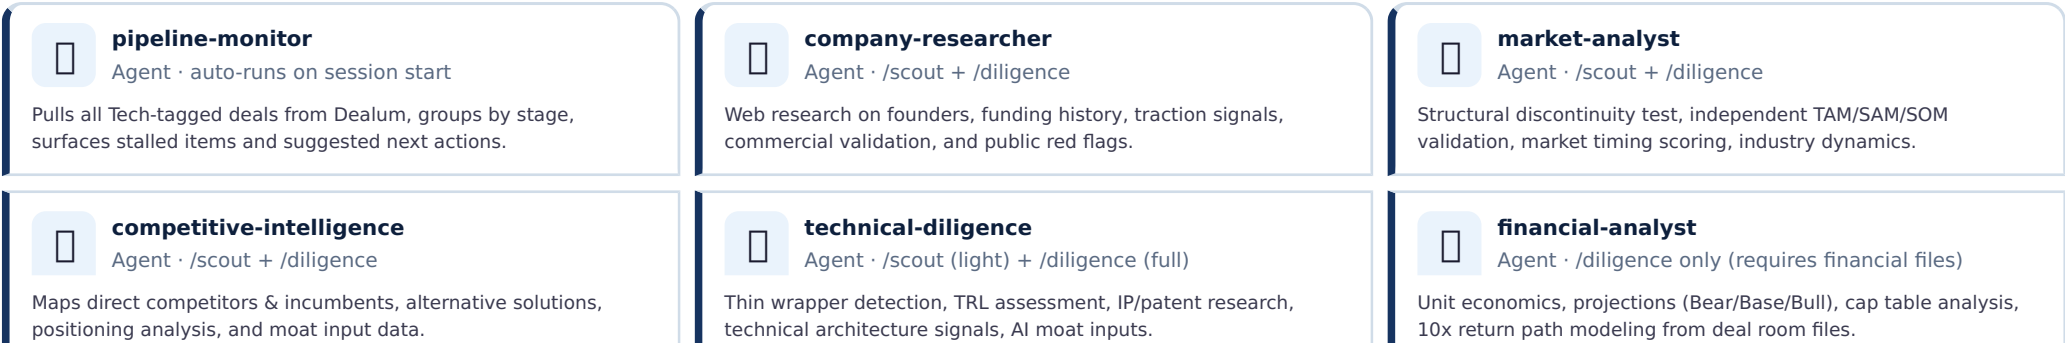

① THE PLATFORM ARCHITECTURE

② THE 7-STAGE DEAL PIPELINE — EVERY DEAL MOVES LEFT TO RIGHT

③ AI AGENTS & SKILLS — CLAUDE'S AUTONOMOUS RESEARCH TEAM

risk-assessor

Agent · /scout (light) + /diligence (full)

Regulatory risk, exit landscape & acquirer dynamics, execution risk signals, market and financial risk overlay.

nwai-investment-framework

Skill · 9 reference docs loaded on demand

Loads NWAi's proprietary frameworks: gates, scout questions, diligence rubrics, DD checklist, AI moats, diligence analysis, report & memo formats.

Document Skills

Skills · docx · pptx · pdf · xlsx

Generate polished Word reports, 4-slide PPTX memos, and PDFs with correct NWAi formatting from structured data.

github-sync

Skill · auto-triggers after file changes

Commits and pushes every generated report, memo, and config change to GitHub — automatic version control on every output.

④ TECHGROUP INVESTMENT PLAYBOOK — THE GROUP-SPECIFIC LAYER CURRENTLY LIVE

□ Framework Reference Docs

□ Gates & Flags

3 hard pass/fail gates · Opportunity score /25 · Readiness score /20

□ Scout Questions

Phase 1 viability · Phase 2 venture potential & moat depth

□ Diligence Scoring Rubrics

General Moat 0–6 · AI Moat 0–10 · Risk 1–10 · Bear/Base/Bull model

□ 17-Folder DD Checklist

Team assignment slots · gate-critical folder designations

□ AI Moats Framework

3 moat types for evaluating AI company defensibility

□ Investment Themes (5)

1□ Infrastructure & Foundational Stack

2□ SW-Enabled HW, Physical AI & Robotics

3□ WorkTech & Vertical Enterprise OS

4□ Data Sovereignty, Security, Trust

5□ FinTech (incl. Real Estate)

✂ Structural Discontinuity

Is this a genuine, irreversible market shift — or incremental improvement dressed as disruption?

□ Memory Lock-in

Does the product get smarter and stickier the more it's used? Data flywheels & switching costs.
