Investment Thesis

② THE 7-STAGE DEAL PIPELINE — EVERY DEAL MOVES LEFT TO RIGHT

③ AI AGENTS & SKILLS — CLAUDE'S AUTONOMOUS RESEARCH TEAM

pipeline-monitor

Agent · auto-runs on session start

Pulls all Tech-tagged deals from Dealum, groups by stage, surfaces stalled items and suggested next actions.

team-analyst **PMTF · v2.13**

Agent · /scout + /diligence (Stage 2A)

Team-first PMTF analysis. Founder Claim Verification (LinkedIn + Perplexity,    states). Team-Level skills coverage (domain / engineering / market access). Commitment Depth (full-time vs advisor ratio, "stuck" advisor flagging). Plus funding, traction, commercial validation, public red flags.

market-analyst

Agent · /scout + /diligence

Structural discontinuity test, independent TAM/SAM/SOM validation, market timing scoring, industry dynamics.

competitive-positioning-analyst

Agent · /scout + /diligence

Maps direct competitors & incumbents, alternative solutions, positioning analysis, and moat input data.

technology-analyst

Agent · /scout (light) + /diligence (full)

Thin wrapper detection, TRL assessment, IP/patent research, technical architecture signals, AI moat inputs.

risk-analyst

Agent · /scout (light) + /diligence (Stage 2A)

Regulatory risk, exit landscape & acquirer dynamics, execution risk signals, market and financial risk overlay.

pricing-analyst NEW · v2.13

Agent · /diligence (Stage 2A parallel)

Pricing Maturity score, value-prop ratio, Channel Economics 5-yr margin compression model (distributor markup vs direct price; gap compresses over time as channel partner gains volume leverage), unit economics (CAC/LTV/payback), Pricing Pressure Forecast.

forecasting-analyst NEW · v2.13

Agent · /diligence (Stage 2B sequential)

Independent 5-yr forecast via the McMurtry method: build proprietary first, then compare to company's submitted numbers. "No AI slop" rule — every Bear/Base/Bull line carries a mandatory *because* clause. Plus Founder Financial Literacy Assessment.

venture-analyst NEW · v2.13

Agent · /diligence (Stage 2B sequential)

Final synthesis. 3-method valuation reconciled. Exit Y3+Y5 (Bear/Base/Bull). Capital + dilution. 35% IRR hurdle test. NWA 10x-in-5-years criterion check. Deal structure recommendation: priced equity / convertible / participating preferred / re-priced / decline.

nwai-investment-framework

Skill · 10 reference docs loaded on demand

Loads NWAi's proprietary frameworks: gates, scout questions, diligence rubrics, DD checklist, AI moats, agent-era readiness, diligence analysis, report & memo formats.

Document Skills

Skills · docx · pptx · pdf · xlsx

Generate polished Word reports, 4-slide PPTX memos, and PDFs with correct NWAi formatting from structured data.

github-sync

Skill · auto-triggers after file changes

Commits and pushes every generated report, memo, and config change to GitHub — automatic version control on every output.

Framework Reference Docs

Universal Triage Framework v2.0

3 hard gates · NWA Filter (Cynical Default · Goliath · LLM Ingestion · Revenue Quality) · Opportunity 6x/30 · Readiness 5x/25 · TechGroup Track A/B extension

Scout Questions

Phase 1 viability · Phase 2 venture potential & moat depth

Diligence Scoring Rubrics

General Moat 0–6 · AI Moat 0–10 · Risk 1–10 with team-commitment + PMTF + verification numerics · Bear/Base/Bull with mandatory *because* clauses + time-varying ARPU

17-Folder DD Checklist

Team assignment slots · gate-critical folder designations

AI Moats Framework

3 moat types for evaluating AI company defensibility

Agent-Era Readiness Framework

Does the founder solve the problem as AI agents will reshape it? · doorway question · 3 scored dimensions · help/hurt member read

Investment Themes (5)

- 1 Infrastructure & Foundational Stack
- 2 SW-Enabled HW, Physical AI & Robotics
- 3 WorkTech & Vertical Enterprise OS
- 4 Data Sovereignty, Security, Trust
- 5 FinTech (incl. Real Estate)

Structural Discontinuity

Is this a genuine, irreversible market shift — or incremental improvement dressed as disruption?

Memory Lock-in

Does the product get smarter and stickier the more it's used? Data flywheels & switching costs.

Agent-Era Readiness

Does the founder solve the problem as AI agents will reshape it? The plain test: does the agent

DD Report Format

11 scored sections · 1–5 RAG scale · IC-ready table structure

Diligence Analysis Framework

Analyst lens for post-meeting analysis · dual role (analyst POV + tracker) · meeting-type playbooks

Memo Format

4-slide PPTX · NWAi branding · "What is the Bet?" framing

wave help or hurt this company?

© NON-NEGOTIABLE INVESTING CRITERIA — EACH GROUP DEFINES ITS OWN EQUIVALENT SET

TechGroup — Hard Pass criteria. Any single failure = Kill.

These are NWAi TechGroup's current criteria. Each group contributes its domain-equivalent version when its playbook is built.

Deal Structure

Equity. Priced round (Seed–Series A). No SAFEs. Convertible debt OK. C-Corp only.

GROUP-SPECIFIC

Geography

US-based HQ & IP. Executive team US-based. No foreign-owned entities.

LIKELY SHARED

Traction

Real revenue or signed paying customers. No research projects or demo labs.

GROUP-SPECIFIC

Stage / TRL

MVP complete. At least one successful beta. TRL 5+ (GAO scale).

GROUP-SPECIFIC

Syndication

Credible lead investor. Clean cap table — no structural red flags.

LIKELY SHARED

Return Potential

10× in 5 years minimum. TAM must support a 20×–100× return path.

LIKELY SHARED
